

CCA DIGITAL CRAFT LAB

The Digital Craft Lab (DCL) supports and promotes advanced research in architectural and parametric design with a focus on:

- **Robotic Fabrication and 3d Printing**
- **Performative Materials**
- **Advanced Geometry**
- **Artificial Intelligence (AI)**

The Digital Craft Lab is dedicated to addressing the pressing issues of our time through experimentation, pedagogy, and outreach. Collaborating with industry partners, sponsors, and academic peers, the DCL advances innovative research and supports a wide range of lab initiatives. We also offer the **MAAD Digital Craft** program, a one-year, post-professional Master of Advanced Architectural Design degree with a concentration in digital design technologies, material innovation, and contemporary digital craft.

Lab Co-Directors

Prof. Jason Kelly Johnson

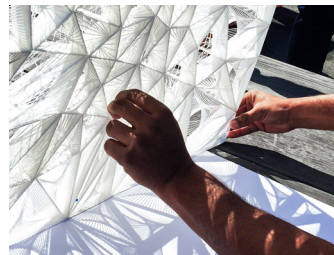

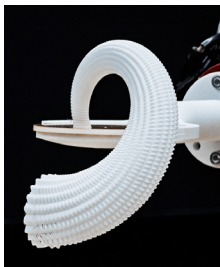

Prof. Negar Kalantar, PhD
